EDUCATION

DUKE UNIVERSITY, THE FUQUA SCHOOL OF BUSINESS Durham, NC
MS in Quantitative Management: Business Analytics, Strategy *May 2026*
Relevant Coursework: Modern Analytics (Python), Data Infrastructure (SQL), Data Visualization (Tableau), Data Science for Business (R), Decision Analytics & Modeling (Excel), Empirical Economics, Strategic Management

MANIPAL INSTITUTE OF TECHNOLOGY, MAHE Manipal, India
B.Tech in Electronic and Communications Engineering, Minor in Business Management *July 2024*
Relevant Coursework: Engineering Economics and Financial Management, Essentials of Management, 5G: Fundamentals & Architecture

WORK EXPERIENCE

LAVELLE NETWORKS PVT LTD Bengaluru, India
Business Analyst *September 2024 - June 2025*

- Built a real-time contract renewal tracker that flagged at-risk accounts monthly, enabling proactive outreach to clients due for renewal, reducing churn and retaining **$1.4M in revenue**.
- Reduced reporting errors by automating the reporting ecosystem using **Python, SQL and Excel**, centralizing fragmented data streams to enhance data quality.
- Led the development of custom **PowerBI** dashboards to track growth metrics such as Sales, Profit Margin, and Inventory Turnover, accelerating executive decision-making cycles.
- Deployed statistical models to forecast business performance with **90% forecast accuracy**, enabling the leadership team to optimize inventory positioning and reduce fulfilment delays.
- Designed and launched an automated inventory management solution in **Zoho Creator**, leveraging usage trend analysis to reduce client downtime through optimized replacement cycles.

SENSORISE DIGITAL SOLUTIONS PVT LTD Gurugram, India
Business Analyst Intern *January 2024 - June 2024*

- Delivered cross-sector market analysis across 5+ verticals, directly informing the company's portfolio expansion strategy.
- Led the redesign of the 'KYC SenseTouch' management platform, migrating the backend from **Java to Python/Django** to improve system scalability and long-term maintainability.

ARCADIS-IBI GROUP Gurugram, India
ICT Intern *July 2023 - August 2023*

- Evaluated smart city technical trends for DMIC-IITGNL, optimizing project proposals and **reducing development lead times by 20%.**
- Synthesized technical concepts into executive presentations, **improving stakeholder approval speed by 15%.**

GRANT THORNTON BHARAT LLP Gurugram, India
Public Sector Consultant Summer Trainee *June 2023 - July 2023*

- Consolidated data from **20+** disparate sources to deliver market research reports that guided state-level strategic planning and policy decisions.
- Assisted in drafting **cybersecurity frameworks** for state-level initiatives, ensuring alignment with national security standards.

SELECTED PROJECTS

Capstone Project - Genuine Parts Company (NAPA) *(In Progress)*. Partnering with NAPA's pricing team to develop customer segmentation and churn models across a large-scale customer dataset, with tiered pricing strategy recommendations expected to be delivered in May 2026.
Classifying Real vs. AI-Generated Images (Python, Pytorch). Built a custom CNN and fine-tuned ResNet-18 in PyTorch to classify 57K images; achieved 99.9% train accuracy with a GPU-optimized preprocessing pipeline.
Predicting House Prices (Python, Pytorch). Implemented deep MLP models with regularization and dropout in PyTorch, achieving 0.091 root mean square error and performing error bias analysis for iBuyer strategies.
Public Safety Demand Analysis - City of Cary (Tableau, Python, R). Analyzed police, fire, construction and traffic data for the city of Cary, using Tableau, identified geographic crime concentration and seasonal crash risk patterns to guide district-level resource allocation.

TECHNICAL SKILLS

Languages: Python (PySpark, NumPy, Pandas), R, SQL; **Visualization:** Tableau, PowerBI, ggplot2, matplotlib, Advanced Excel (functions, lookup, pivot tables); **Machine Learning:** Regression (Linear, Logistic, Lasso), SVM, K-means, Decision Trees, CNNs; **Tools/Frameworks:** ETL, PCA, Hypothesis, A/B testing, Time-Series Forecasting
